EDUCATION

Kumaraguru College of Technology Coimbatore, TamilNadu

Bachelor of Engineering in Computer Science Engineering – 8.95 CGPA
2024- May 2028

Sep.

EXPERIENCE

Google AI-ML Virtual Internship, Eduskills (AICTE)

April 2025 – June 2025

- Fundamentals of Artificial Intelligence and Machine Learning
- Hands-on projects using Google Developer tools
- Exposure to real-world applications of AI across industries

Microsoft Data Engineering Virtual Internship, Eduskills(AICTE)

Nov 2025- Dec 2025

Acquired practical knowledge of Azure Data Fundamentals (DP-900), including relational/non-relational databases and data lakes.

PROJECTS

NutriBot – Diet Recommendation System for Diabetic Patients | *Python, Pandas, Scikit-learn, matplotlib*

- Built and deployed a full-stack AI health web application from scratch
- Curated a domain-specific dataset of 70+ South Indian dishes with nutritional and glycemic index data
- Designed and implemented a recommendation engine combining rule-based filtering and ML scoring
- Integrated a large language model (Grok) via REST API for real-time diet assistance
- Implemented multi-page navigation, user auth, and persistent profile storage

Treatment Feasibility Predictor | *Python, Flask, Scikit-learn, HTML, CSS*

- Built a full-stack ML web application using Flask to predict treatment feasibility for patients based on health records
- Trained and compared 4 ML models -Gradient Boosting, Logistic Regression, MLP Neural Network, and Random Forest with individual accuracy scores displayed per model
- Supports prediction across 6 treatment types including Chemotherapy, Immunotherapy, and Surgical Intervention, with both single and multi-treatment prediction modes
- Implemented PDF report generation to download patient treatment feasibility results
- Developed end-to-end pipeline from model training to browser-based deployment via Flask REST API

SKILLS

Technical skills:

Languages: HTML, CSS, C, C++, Java, JavaScript, Python, Flask, MySql, React

Libraries: numpy, pandas, matplotlib, scikitlearn

Soft Skills: Leadership, Teamwork, Effective Communication, Orating

ACHIEVEMENTS & EXTRACURRICULARS

- Achieved '**Mahatma Gandhi Scholarship**' and **TVS Scholarship** award for good academic performance and CGPA.
- An active member of the **ACM** (Association for Computing machinery) at the college.
